SYSTEMATIC CHAOS

10TH JAN, 2025

K.C. COLLEGE,
CHURCHGATE

11TH JAN, 2025

K.C. COLLEGE,
COLABA

INTRODUCTION

K.C. College was established in 1954 under the aegis of the Hyderabad (Sind) National Collegiate Board. The college has been awarded the Best College (Urban Area) by University of Mumbai in 2015. In 2019, the college was awarded Star College Status and Star Scheme by the Dept. of Biotechnology, Govt. of India. It offers all three streams Arts, Commerce and Science. Our college is located in one of Mumbai's prime areas which is Churchgate, Colaba. A few popular alumni are Anil Ambani, Mr. Hiranandani, Rajesh Khanna, Kajal Agarwal. K.C. College has consistently received Grade 'A' certification by NAAC maintaining its reputation for academic excellence.

WHY US?

Systematic Chaos is an honored legacy and annual cultural intercollegiate festival of the IT department. The festival provides futuristic technical training and instills patterns of high discipline, making participants technologically superior and ethically strong. The festival provides an exciting, competitive environment and a creative outlet for participants and audiences alike. From awareness to credibility with young people, that's what Systematic Chaos has to offer. Few events under Systematic Chaos umbrella are Cultural, Designing, VR, Sports, Gaming, Hacking, Trivia, and Technical. Systematic Chaos leaves a lasting impact, shaping a future where technology and values go hand in hand.

THEME

The theme "**Pixelated Matrix**" represents a fusion of digital abstraction and interconnected complexity, inspired by the visual language of pixelated graphics and the structural framework of a matrix. It symbolizes the fragmented yet cohesive nature of modern digital life, where individual components such as pixels or data points combine to form larger patterns and systems. This theme reflects a balance between chaos and order, showcasing how small, seemingly insignificant elements create intricate networks of meaning. It often evokes a sense of nostalgia for early digital aesthetics while simultaneously commenting on the pervasive influence of technology in shaping our perceptions and realities.
