INTRODUCTION

KC College was established in 1954 under the aegis of the Hyderabad (Sind) National Collegiate Board. The college has been awarded the Best College (Urban Area) by the University of Mumbai in 2015. In 2019, the college was awarded Star College Status and Star Scheme by the Dept. of Biotechnology, Govt. of India. It offers all three streams Arts, Commerce and Science. Our college is located in one of Mumbai's prime areas which is Churchgate. A few popular names like Anil Ambani, Mr. Hiranandani, Rajesh Khanna, Kajal Agarwal are amongst the aluminous of our college. K.C College is also the first college to be awarded grade 'A' by the NAAC in Mumbai.

WHY US?

Systematic Chaos is our annual cultural intercollegiate festival of the IT department, an honored legacy. The festival provides futuristic technical training and instills patterns of high discipline, making participants technologically superior and ethically strong. The festival provided an exciting, competitive environment and a creative outlet for participants and audiences alike. From awareness to credibility with young people, that's what Systematic Chaos has to offer. Here are a few events organized by us Cultural, Designing, VR, Sports, Gaming, Hacking, Trivia, and Technical.

This is a great marketing opportunity to showcase your company to the building blocks of society and broaden its horizons.

THEME

CYBERPUNK

Cyberpunk, a captivating science fiction genre, paints a vivid picture of a future where the very fabric of society is woven by the intricate threads
of computer control. Within this dystopian landscape, technological marvels like artificial intelligence and cyberwar shape a high-tech world, once envisioned as utopian, now marred by societal collapse and decay. Mega-corporations, towering over urban landscapes with skyscrapers and neon-lit streets, exert dominance, contributing to the stark contrasts of affluence and destitution. Computer networks, the arteries of this futuristic society, simultaneously empower and ensnare its inhabitants.
